EGG YOLKS	g 500	Divide the dough into 5kg portions and refrigerate for about 3 hours.
WATER	g 1500	
MILK 3.5% FAT	g 1000	

INGREDIENTS

MARBUR CROISSANT 20% To Taste Roll out the dough into a rectangular layer, lay MARBUR CROISSANT onto a half (1.5 kg of

butter or margarine for 1.5 kg of dough) and fold so that the other half cover the first and the

sheet of butter is completely enclosed in the dough. Seal the edges well.

Roll out in order to shape the dough into a rectangle and make a 4-layer fold, then roll out again

and make another 4-layer fold.

PREPARATION

Let the laminated dough rest in the fridge for 2 hours before working it.

FINAL COMPOSITION

Remove the laminated dough from the fridge and roll it out to 4 mm.

Cut the dough into triangles, roll them up well tight, from the base up, and bend the tips in order to give them a crescent shape.

Place them onto trays and store into the proofer room. The temperature has to be not higher than 26°C, if the dough is laminated with butter, and not higher than 30°C if you use margarine instead.

When risen, bake at 180-190°C for 18-20 minutes.

AMBASSADOR'S TIPS

If you prefer, you can replace butter with margarine in the croissant dough.
